

# Thank You!

Moss Mansion Museum is one of Montana's most iconic historic and cultural sites. With funding from Senate Bill 338 and the Historic Preservation Grant Program, the museum (operated by non-profit Billings Preservation Society) was granted \$400,000 for a long list of overdue projects needed to preserve the mansion's structure. The projects paid for from that grant are now complete! Billings Preservation Society and the Moss Mansion family wish to share a heartfelt thank you to the skilled craftsmen and contractors who did so much, from the foundation to the rooftop, to make sure the mansion is a local icon for generations to come.

These crucial preservation activities would not have been possible without the Montana Historical Society and Preservation Office, the 2019 Montana Legislature, the Montana Department of Commerce, and continued overwhelming community support.

*If you haven't been a guest at the Moss Mansion, now is a great time to come and see this significant historic site and local treasure!*
